# FOL-OIL

### **INTRODUCTION:**

**FOL-OIL** is a mix of a number of organic essential oils in an organic oil base, all of which have beneficial qualities to plants. Its application to crops can help produce better health and more balanced vigour. It is based on a homeopathic concept.

**FOL-OIL** is neither an insecticide nor a fungicide, its applications however will help the plants becomes healthier, and consequently more resistant to insect and fungal attacks.

### **DIRECTIONS FOR USE:**

**APPLES AND PEARS:** 350-400 ml/100 Lt water.

**BROADCARE:** 200-250 ml/100 Lt water applied in the morning or late afternoon.

**CITRUS:** 600-700 ML/100 Lt water.

**CUT FLOWERS:** 300-350 ml/100 Lt water applied early in the morning or late in the afternoon.

**FIELD CROPS:** 400-500 ml/100 Lt water applied in the morning or late afternoon.

**GREENHOUSE VEGETABLES:** 300-350 ml/100 Lt water applied early in the morning or late in the afternoon.

**STONE FRUITS:** 250-300 ml/100 Lt water to be applied early in the morning or late in the afternoon.

Avoid applying by the heat of the day and if temperatures exceed 35 Celsius. In cold climate conditions, go for the higher allowable application rate.
